the **DE** *hinge*
FOR VITALLIUM®
STRESS-RELIEVED PARTIALS

The tiny precision DE hinge utilized on extension saddles provides the safeguards for tissue displacement and during ridge resorption. The saddles are allowed to move to compensate for these changes and abutments are protected from the leverage action, common to rigid type construction.

Mouth tested for two years, the DE hinge is a successful solution for the protection and preservation of abutments. It is cast in one piece, simple, strong and completely concealed with no screws or mechanical parts to adjust . . .

the "NEW LOOK"...

HAVE YOU SEEN IT?

Here is a completely new concept of the modern esthetic denture which offers:

- ... Faithful anatomical reproduction of natural gum contours
- ... Amazingly natural simulation of living tissue color
- ... The lifelike forms and beautiful qualities of healthy natural teeth

Ask your Trubyte Dealer or Dental Laboratory to show you the new Trubyte Bioform Veneer Denture and make your own comparison test. You'll agree the "New Look" offers a new and distinctive service for all your denture patients.

Basic Anatomic Factors of Jaw Position*

Ralph H. Boos, D.D.S., Minneapolis, Minnesota

[Editor's Note: *Dr. Ralph H. Boos graduated from the University of Minnesota in 1929. He is a member of the American Dental Association, the Minneapolis District Dental Society; Fellow, Academy of Denture Prosthetics; and Diplomate, American Board of Prosthodontics, American Full Denture Society and Minnesota Academy of Restorative Dentistry.*]

The control of the condyle relations in the glenoid fossae is usually dependent upon muscle function moving the jaw to the tooth occlusion, within the limitations of the anatomic

Dr. Boos

structures. If the occlusion is normal, at the proper vertical height and in the centric position, the jaw position will be normal and the condyle will be in the proper relation to the other anatomic structures of the temporomandibular joint.

However, many occlusions are not normal. Malposition and/or loss of teeth, and various other conditions often result in a traumatogenic occlusion. These conditions cause the jaw to be malposed and the result may be a traumatogenic condition in the temporomandibular joint as well as disharmony with the muscle forces.

The malocclusion may vary greatly from a very slight malposition with practically no symptoms to extreme malposition with severe symptoms.

To diagnose the occlusion and to establish a normal position of the jaw and the condyles, we require a technique to register a jaw position. Many techniques have been devised for this purpose, such as wax checkbites, wax bite rims, Gothic arch tracings, hinge axis registrations, and rest position determinations. All of these techniques are apparently dependent upon basic anatomic factors. In all of the methods or techniques used, there are factors of anatomy which either limit or control the centric relation registration. Even the psychology of the patient and the operator are factors in these registrations. However, in this discussion, we will try to limit ourselves to the predominating basic factors of the anatomic structures affecting condyle relations or jaw position.

We could consider a number of the techniques to have a practical approach to the basic factor. In the ordinary wax checkbite with teeth present, the tooth occlusion is recorded which is then con-

*Presented at the 1954 Midwinter Meeting of the Chicago Dental Society.

sidered the basic factor of that type of registration because it has positioned the jaw. Sometimes the occlusion itself is used without a wax checkbite. In these techniques, the important consideration is that the tooth occlusion is used as the basic factor for determining the jaw position.

In the Gothic arch tracing technique, the extensions of the movements of the mandible in all directions on a horizontal plane are recorded. From this, a registration of the most retruded position from which lateral movements may be made is secured. This is considered to be the centric relation. The basic factors in this type of registration are the muscles as the motivating factor, with the ligaments and the structures of the temporomandibular joint providing the limitation to the movements. This would result in the structures of the temporomandibular joint being the basic or predominating factor in that type of registration.

In the terminal hinge axis technique, apparently the most retruded or most posterior position of the mandible in which a pivotal axis can be developed is recorded. The opening and closing pivotal axis is obtained by moving the jaw open and closed. In this type of registration, the anatomic structures of the temporomandibular joint would also be the predominating factors, and the condyle would be in the most distal position possible at the time of the registration. There seem to be a number of hinge axis movements which may be developed, even in various protruded relations from the most distal position to a fully protruded position, depending upon the training of the individual. In each of these, the position of the condyle would be different, but in the terminal hinge axis, the distal position has been suggested.

Other techniques for locating centric relation use the bone and tissue as the basic factor. Among these are the use of occlusion rims which are placed on tissues, cephalometrics, roentgenograms, and average measurements of anatomic structures. The form and size of bone are primarily dependent upon hereditary fac-

tors as affected by acquired conditions. Averages of measurements, such as the length of face, are very interesting and helpful in determining a jaw position. However, because of the variation in individual patients, it does not seem reasonable that the average figures may be applied to one individual to determine jaw position.

The form of bone may be changed by force, that is, by the power of muscles. Wolff's law states that "function determines form." This indicates that muscular forces may affect the bone form. Tissue must be used in registrations, but since it is displaceable, great care must be exercised to determine the position provided by this method.

In the physiologic rest position technique, which requires the jaw to be at the physiologic rest, and the head in a normal upright position, without any effort of function, the jaw position is in the neutral center of muscle forces. Physiologic rest position is a static position. This type of registration has the musculature as the predominating basic factor. Muscles generally maintain their normal length from origin to insertion. However, extreme conditions such as senile atrophy and disease may change this. Tension and habit patterns apparently affect the muscle length, but they may quite readily be returned to normalcy by conditioning.

Briefly, we have considered the following as predominating basic factors in the registration of jaw position: (1) occlusion, (2) the temporomandibular joint, (3) the bone and soft tissue, and (4) the musculature. All of the anatomic structures indicated as basic factors are interrelated in function, but there does appear to be a predominating basic factor depending upon the technique which is used for the registration.

By studying the various registrations in relation to their basic anatomic factors, we might arrive at an opinion as to which factor predominates. A principal factor would be most helpful in the selection or development of a jaw relation registration technique.

OCCUSION

Tooth occlusion is probably the most commonly used method for jaw relation registration. Tooth replacements are made at the acquired occlusion, and the vertical dimension is opened or closed from that position. We recognize the fact that a very great percentage of occlusions might be considered malocclusions which may cause traumatogenic conditions. This would develop into a traumatogenic condyle position. Because patients have been able to use their teeth at the acquired occlusion, they may continue to use them in that relation. Mouth conditions may be aided and relieved by some corrections from presented occlusion. However, it is doubtful that a tooth occlusion provides a scientific position of jaw relation from a physiologic standpoint.

BONE AND SOFT TISSUE

Bone and soft tissue may be affected by hereditary and acquired conditions. Bone is helpful in considering the relation of the tooth to the foundation, but there may be a question of a normal relation in the consideration of jaw position because of the fallacy of applying comparative average measurements to an individual. Changes of bone due to traumatic conditions are misleading.

THE TEMPOROMANDIBULAR JOINT

The temporomandibular joint, as used in the hinge axis and Gothic arch tracing techniques, may be affected by a malocclusion. If the malocclusion includes a traumatized temporomandibular joint, it is possible that this traumatic condition would be recorded as the jaw position. In some patients, there is a possibility that the condyles may be forced into a distal position, either unilaterally or bilaterally. The distal or terminal position would be recorded, rather than the normal relation of the anatomic structures in the joint. When the check-bite transfer is recorded at the distal

position, the patient may continue to use the occlusion at that distal position, and be somewhat relieved of traumatic conditions by an increased vertical opening and a balanced occlusion. However, the complete treatment of a normal condyle relation may not have been accomplished.

THE MUSCULATURE

The use of the musculature or physiologic rest relations might be complicated by tensions or other conditions. A normal relation is usually possible by conditioning the muscles for a recording of rest position. There may be habit patterns which need to be reduced to permit a normal muscle function. The muscles and their function appear to be the predominating factor over the other anatomic structures. At the time of the treatment of the patient, the musculature is the predominating factor. Muscles may be returned to a normal function within a reasonable length of time.

By conditioning the patient and recording the unstrained physiologic rest position, there is a good possibility of recording a normal jaw relation. By recognizing and including a consideration of the free-way space, we may diagnose vertical dimension. By closure from rest position, we may record the centric relation, and because the muscles are of equal length, we will have recorded a neutral center without the existence of tipping forces on the mandible.

We may control the position of the condyle and determine the positions of occlusal function by diagnosing the occlusion from the physiologic rest position. The occlusion is placed in harmony with the muscles, and we have established a normal physiologic relation between the occlusion, the muscles, and the temporomandibular joint.

SUMMARY

In normal cases, the occlusion, the temporomandibular joint, the bone and

NEWS AND ANNOUNCEMENTS

SYMPOSIA PLANNED

Two of the symposiums that are being set up by Dr. Walter E. Dundon, Program Chairman of the Midwinter Meeting, are on "Nutrition in Dentistry" and on "The Proper Handling of Patient Grievances." Outstanding panelists on both of these subjects will discuss their every aspect.

Plan to arrive in '55; Conrad Hilton Hotel — February 6, 7, 8 and 9.

BOB VOYAGE

That corn reminds us of the sugar cane you'll see growing in Jamaica and the other romantic spots in the West Indies if you wander down there after the A. D. A. meeting in Miami. Bob Placek was in the office the other day telling the Editor all about the tour he has organized to do just that—an all dental expedition by land, sea and air that will touch all of the really interesting out-of-the-way spots the ordinary tourist doesn't even dream about. Bob has spent a lot of time in the West Indies in general and a lot of time just in making up the itinerary and com-

pleting the arrangements for this trip. He nearly has his guest list complete but will take on a few more folks if they are real swift about asking him. This is a sweet deal, even without the sugar cane, so our advice is to call Bob at HUmboldt 6-2575 and sign on for a fun voyage to the sunny Caribbean.

WILLIAM A. PITT
1872-1954

Dr. William A. Pitt, 81 years of age, of 526 N. Sheridan Road, Waukegan, died on Thursday, April 22. He was graduated from the Chicago College of Dental Surgery, Loyola University in 1895 and was a life member of the Chicago Dental Society, Illinois State Dental Society and American Dental Association.

Dr. Pitt practiced thirty-seven years in Chicago's Loop and thirteen years in the suburb. He was a past-master of Waukegan Masonic Lodge 78.

He is survived by two daughters, Mrs. Marjorie Fischer and Mrs. Eleanor Joyce; and two sons, Edward M. and William G.—O. E. Scott, D.D.S.

DENTAL ASSISTANTS EXTENSION COURSE

The Chicago Dental Assistants Association will hold its fourth 104-hour Extension Course for all dental assistants, at the Northwestern University Dental School, 311 East Chicago Ave., Room 1393. Registration will be held at 6:30 p.m. on Wednesday, September 22, to be followed with class at 7:00 p.m. All assistants desiring to take the course are requested to fill out the application which was sent to all members in June by the C.D.A.A. and mail not later than August 20 to Gladys E. Triphahn, Room 805, 108 N. State

(Continued on page 42)

ABSTRACTS

SIMPLE METHOD FOR REPRODUCING THE DENTAL ARCH

The author has devised a simple method by means of which the dental arch, as viewed from the occlusal plane, can be reproduced in one plane. An alginate impression, taken with a special tray, 3-5 mm in depth and with the margins ground in the same plane, is cut in a special way for stamping. After colouring the cut, non-anatomical part of the alginate impression by pressure against a stamp-pad a diagram of the dental arch can be printed on paper. The author has used the method for certain metrical studies. In relation to the making of plaster models the method is cheap, time-saving, it requires no laboratory work and it avoids all transport and storage problems. In relation to the model method its use is, however, limited. It is suggested that it might be useful for "growth studies" and for identification purposes in forensic odontology.—*EN ENKEL METOD FOR REPRODUKTION AV TANDBAGEN*, by Volmer Lind, Tandlakare. *Odontologisk Revy*, Vol. 5, 1954, Nr. 1. O.C.L.

PHYSICAL PROPERTIES OF AGAR TYPE HYDROCOLLOID IMPRESSION MATERIALS

On the basis of the test described in this article, a review of the literature and supporting tests, the following conclusions were reached:

1. Cooling of reversible hydrocolloids during the making of an impression should progress slowly with temperate water, especially during the initial gelation.
2. An impression should be poured up promptly after 15-30 minutes immersion

in a sulphate salt solution which approximates a 2% solution of potassium sulphate in water on a weight to volume basis.

3. Immersion of impressions for over 30 minutes cannot be accompanied by accurate results when a standard impression tray is used.

4. Although an Isotonic Solution can be developed for any specific material, temperature changes of the solution will not permit long immersions in any solutions.

5. There is no objection to immersing the poured up stone models in water, or solution, to set but not into the same solution as that used for immersing the impression coming from the patient.

6. All stone models should be separated from the hydrocolloid after thirty minutes setting time but before an hour.—*SOME LAWS OF PHYSICS PERTINENT TO THE AGAR TYPE HYDROCOLLOID IMPRESSION MATERIALS*, by Walter J. van Rossem. *Southern California State Dental Assn. Journal*, April, 1954. O.C.L.

EFFECT OF STARVATION ON DISEASES

Contrary to accepted views, starvation and semi-starvation are not the cause of increases in epidemics of infectious diseases. During the war and post-war period, it was found that where satisfactory sanitary conditions existed there were no epidemics despite a prevailing condition of semi-starvation. Tuberculosis is the only exception, for it is unfavorably affected by malnutrition. In all countries where the distribution of food was scientifically planned, public health improved despite a shortage of fats and proteins. It was found that it is most important to supply enough calories, the amount to vary according to age, weight, size and

(Continued on page 41)

NEWS OF THE BRANCHES

NORTH SIDE

J. Gordon, your branch correspondent, is taking a vacation from the writing of this column for a few months and I have been elected to do the writing. For years I have read the news about each of the components of the Chicago Dental Society and I always thought that writing the column would be easy—but frankly speaking, fellows, whether it is easy or not depends entirely upon each and everyone of you! Without news of your activities, your hobbies, or your problems, this column cannot be written. So how about it! Write, call, or wire (not collect) and let us hear what each of our members are doing. . . . Every once in a while we hear of dentists who are not only good at their profession, but who distinguish themselves in other fields as well. There are two such men in our news today. One is Arthur M. Duxler who is retiring as a full Colonel after serving for 21 years in the U.S. Army organized reserve. Dr. Duxler is very active in national sports' organizations. He has served as an Olympic boxing and sports' judge. He has been a member of the Illinois State Athletic Commission and the Catholic Youth Organization Board. Congratulations to Dr. Duxler and we wish him many more active years. . . . The other man is H. L. Rubens. Dr. Rubens served as a Lt. Colonel in the U.S. Army from 1949-1951. When he left the service, he traveled as a private citizen for one year around the world, visiting 30 foreign countries. I paid a visit to Dr. Rubens and was amazed at the wonderful oil paintings and sculptures that he has done. He has been in practice for 34 years and yet he finds the time to spend each morning somewhere along Chicago's lake front or slum area—painting the life as he sees it. We hope that we will hear more of Dr. Rubens. . . . Other dentists in the news are Murray Hoffman who went to the

west coast for 5 weeks. . . . Herb Gustavson who returned from a week's vacation. . . . Abe Hoffman who returned from an eastern trip where he took in the McCarthy hearings (no comment from Abe) . . . Max Chubin and his new medical building (now he needs patients to pay for it) . . . Louis Batler who is now practicing two days a week in Lincoln Village. . . . LeRoy Levey who is vacationing in Ely Lake, Minnesota. . . . Bernard Allen who went to Eagle River on an extended week end. . . . S. R. Fields who has for patients all the gals from the Silver Frolics (I should have it so good!) . . . Wm. Grabow who says he was "caught unawares" when I asked for news. . . . B. Lauren who promised to call and give me some news. . . . Warren Gerber who left to rough it out west for four weeks. . . . Joseph Stillerman who just air-conditioned his whole house (the lucky . . .). . . . Some announcements: . . . Loyola U. is having its annual Golf Outing and Dinner at Glendale Country Club, Wed., Sept. 15. . . . And, don't forget the first North Side meeting Tues., Oct. 5. The program will be a special one for dentists planning their estates. . . . See you all then and meanwhile let me have some news from you.—*Harold Rabin, assistant branch correspondent.*

NORTH SUBURBAN

The grab bag is a wee bit light this time. Everyone has the lawn mowed, the garden weeded, the kids spanked or off to camp for the summer. The little woman has been staying within her budget, and we haven't heard any new stories. . . . Yours truly managed to punch a hole in "George's" gas tank (our new yellow Buick). On the way to the "Milk Pail" a couple of Sundays ago we nicked a piece of scrap iron on the highway; thirty miles later we were fifteen gallons

lighter (some mileage). George is all well now, and promises to be good. . . . In the hobby department we've discovered that Gordon Howard has just become proud pappy of his fifth youngster, a boy. . . . And, completing the report on Hal Chason who at the time of our last issue was so jittery and upset in his role of anticipatory grandfather—you should note the "see what I did" look on his face now. . . . Seems to be a rash these days of moving or remodeling office space. Art "I've got a jar full of tees at home" Freeman, packed the family off to New York State, and Vermont for 2½ weeks while the space he and Jim Carter shared is being renovated. Art will take over the whole space while Jim will move into a nice set-up in the University Building (1604 Chicago Ave., Evanston). . . . O. H. "Stutey" Stuteville, a short time ago, removed his offices from 1604 Chicago Ave., Evanston, to 700 N. Michigan Ave., Chicago. Sorry to see you move, Stutey, but our best wishes are yours. . . . We mentioned a month ago that Andy Koller was planning a move to Palatine. The fire's hot now, and Andy is practicing three days a week in his new two-chair office. . . . Tom Graber is off to Arizona for two weeks while his new office in Kenilworth gets the finishing touches. . . . Fred Schaffer of Lake Bluff has assumed a leisurely role, having sold his practice he is now planning a home in California. . . . Floyd Grover has been spending a well-earned two weeks at home. Golf, the yard chores, and horse racing have occupied his time though he had to admit, "I ran down to the office a few times to be sure those guys on my decorating job stayed on the ball." . . . Waldo Urban is the most recent member of the new car club, and is breaking in his new Olds "88" Holiday on a trek to Colorado. 'Tis said, however, the prime motive for the trip is to take a rest from the drip, drip, drip from the exhaust of Harry Chronquist's air-conditioner two floors up. "Every time a drop lands on my air-conditioner it sounds like someone firing a 22. I began to think I was in season." . . . Harry has been getting away from it all, too. Just returned from a

couple of weeks at Rice Lake, Wisconsin, and is now full of plans for taking the family up to Barron, Wisconsin for a visit with his mother, and a little more fishing. . . . Randy Wescott spent ten days motoring in the vicinity of Copper Harbor, Harbor Point, and many of the other nice places up that-a-way. . . . Don Palmer, on Hal Chason's recommendation, ran up to Virginia, Minnesota to take advantage of the Finnish baths—not hot enough around here lately. . . . Clarence Stearns is back from a trip to New York. . . . Bob Donovan is all primed for a series of lectures before the Denver Orthodontic Seminar during the first week in August. . . . J. Mackey is a mighty proud feller these days. The "chip" graduated from the University of Illinois College of Dentistry WITH HONORS. . . . George Postels was mighty tickled having his son home on furlough from the Army, most unhappy, however, when the young man contracted pneumonia—recovering with good progress at last report—a tough way to spend a furlough. Our own indubitably indefatigable, and intrepidly loquacious Milty Dawson has been visibly straining the leash lately. Some time ago he bought, and contracted for the rebuilding of a Piper Cub to be ready for flight about May 1st. Here 'tis August, and still no plane. Milty is figuring on next May. By the way, did y'all know Milty is also an aspiring ham radio operator? Talented, ain't he—bet he'll need a private frequency. . . . Axel "Pete" Pedersen joined the Glenview volunteer fire brigade July 19th when he accepted delivery on his new Chevy—screaming red 'the color. . . . Tod Dewel gained another pound, and changed his brand of cigarettes. . . . L. V. "Stevie" Stephenson has been taking Saturday off lately—'swonderful. . . . Bob Jans has hung out a new sign since adding air-conditioning in the office. "Oral Surgery in comfort. No more sweat box technique." Well, that's what he said. . . . Jimmy Keith jes can't say no. Thought he was all set to rest a while, but someone caught him off guard. He's a member of the Public Policy Committee for the Chicago Dental Society. . . . Larry

Hill is visiting with his daughter in Denver . . . and real estate tycoon, Jim Fonda, made a fast flying trip to Florida to be present at the grand opening of a furniture store in one of his new buildings in Miami. . . . The last meeting of the Kenilworth, Winnetka, Glencoe Dental Study Club resulted in the election of Bill Ford as next year's President, Bill Lazear as Secretary-Treasurer, and featured Russ Johnson in a discussion of the hydrocolloid technique. Russ added a little flavor to his program showing colored slides of his trip to California, and in glowing terms, commented on his impression of the Dental College at the University of Southern California, and several of the beautiful offices he visited. . . . So until another session, I'm your *B.C.—F.S.V.*

WEST SUBURBAN

During the summer months while most of the boys are just taking it easy, the program chairmen of the different groups have been hard at work readying interesting meetings for us. They already have most of the year lined up. The first meeting of the branch will be on Oct. 12, and "Wes" Olsen has gotten Dr. John Woehler from Calif. to speak on "Dental Economics." Please make a note of these so that no one can say that he didn't know soon enough to hold the time open. Bill Sisson has gotten Dr. Joseph Brophy to speak to the West Suburban Study Club on the topic of the illegal dental laboratories; and at 12:00 noon on Oct. 4th at the Oak Park Club Dr. Brophy will bring to the group the latest authoritative information on the subject. This talk should be well supported, so turn out. Jim Ridlen of the Burlington Study Club has lined up an outstanding speaker for Thurs., Sept. 23, in Dr. Wm. Figg of Joliet who will speak on the subject of "Production Management as Related to Present Economic Conditions." Whew! It would seem that all three of the groups will start off with a bang. . . . I might add that if you expect to eat at the West Suburban Study

Club meeting you should make a reservation with Ed Black by calling Village 8-4800. . . . We all want to welcome John O'Connell of LaGrange back to his practice after spending time over in Korea. We hope that they are beating down the door of his office in no time at all. . . . The group also hopes that Paul Kilgore of Downers Grove is having the best of luck in his duty with the marines at a Navy base in Calif. . . . And now on to the boys who are taking it easy. Up in Ludington, Mich., Earl Emery spent two days on the beach and ended up looking like a big juicy lobster. Well done on both sides, I understand. . . . Frank Olson and Arnold Anderson have been spending a lot of time together on the golf course trying to see who can lie the best. . . . Ken Nicholls has left us for a month's vacation; the lucky dog. . . . "Wes" Olsen has taken his boy scout sons to the North Woods for two weeks to show them a few of the finer points. . . . Milo Hattenhauer has gone to Bramff and Lake Louise, Canada to see how the fishing is in that area. . . . Frank Krivanek and Carl Mitchell are vacationing in Wisconsin. . . . Rudy Weihe is back again in Canada to catch the ones that got away last time. . . . George Welk was just in New York and made a fine catch of a yellow bellied taxi cab. He intends to have it mounted and put in his waiting room. . . . We are all glad to hear that Bob Underwood is going to be associated with Rudy Weihe and become a member of our branch. . . . Earl Morris is to give a clinic on endodontia in Detroit some time in the future, and our own Bob Atterbury is the author of a chapter of Dr. Nevin's book, *Problems in Local Oral Anesthesia*. . . . George Ritter is now a resident of Oak Park, having moved from Chicago. . . . Quent Mangion is telling the boys that number three is in the offing; good for him. I would like to get in my bit and proudly say that I am a proud papa for the third time myself. The best of luck to you, Quent. . . . When I mentioned that the boys were taking it easy I should

Applications for Membership

The following applications have been received by the Ethics Committee: Any member having information relative to any of the applicants, which would affect their membership, should communicate in writing with Sol A. Shiret, 25 E. Washington St. Anonymous communications or telephone calls will receive no consideration.

Applicants

No new applications for membership have been received.

Unicast

CASTING GOLD

When economy is a factor, here is a rich gold color, non-tarnishing alloy that you can use with complete confidence. Like Super-Oralium, it has a high Palladium content—providing properties and accurate casting characteristics that allow it to be used for inlays as well as for partial dentures.

Order a few dwts. of Unicast for trial. We know you'll be more than pleased with it.

Retail \$1.83 dwt.—\$100 or laboratory wholesale rate \$1.64 dwt.

BAKER & CO., INC. 850 PASSAIC AVE., EAST NEWARK, N. J.

DO YOUR OFFICES FIT YOUR PRACTICE?

Our Planning Department will without obligation, design offices to give you real efficiency and to eliminate waste of space.

We welcome your inquiries

HELP WANTED

Wanted: Experienced dental assistant with good personality and business ability for a select North Side office. Superb working conditions and salary; 5-day week, no evenings. Please call Dr. M. H. Levine, 3225 W. Lawrence Ave., KEystone 9-3211.

Wanted: Dental Assistant—first-class secretary-assistant to orthodontist. Loop location. Must type well. Please state particulars. Address S-18, The Fortnightly Review of the Chicago Dental Society.

ASSOCIATIONS OR SITUATIONS WANTED

DENTAL ASSISTANT—We have a very attractive young woman who has held only one position for the past 6 years—this was an extremely busy office. Our applicant assisted at the chair, took and developed x-rays, typed statements, and did light book-keeping. For information on the above applicant and many others, call RANDolph 6-3837, GARLAND MEDICAL PLACEMENT.

DENTAL ASSISTANT—High School graduate, no experience, desires position. Prefers South Side. Call RADcliffe 3-7173 Saturday through Wednesday before 6:00 p.m.

Dental Assistant—Receptionist, experienced, responsible, good reference. Prefers Loop or Northwest Side. Telephone ALbany 2-2446.

Dental Hygienist—available three days per week. Prefers North or Northwest suburbs. Telephone VANDerbilt 4-8236.

MISCELLANEOUS

HYPNOTISM INSTRUCTION: Evening classes. Under direction of Edwin L. Baron, Ph.B. Hypnotism Institute of Chicago, 64 West Randolph Street, Chicago 1, FRanklin 2-4188.

FACTORS OF JAW POSITION

(Continued from page 7)

soft tissue, and the musculature all produce the same relations of each to the others, and any one of many registration techniques could be used. In other words, we could employ most techniques and obtain a satisfactory record of jaw relations if normal conditions were present. In addition, there is quite a functional tolerance of all of the factors of jaw relations.

However, to develop a technique which could be applied to all types of patients, normal and those where the factors of jaw relation have been disturbed, we must select a predominating factor which is most nearly normal.

Apparently, the musculature is the predominating basic factor of jaw position. It provides the motivation and the power for the jaw and determines the rest position. The physiologic rest position of the jaw may be used as the diagnostic reference position.

ABSTRACTS

(Continued from page 9)

sex. Next in importance are proteins, minerals and vitamins. In time of food shortages, available foodstuffs should be prepared with care for their best possible utilization.

Laboratory experiments with animals have shown that starvation, protein deficiency particularly, lowers resistance to infection, but this conclusion should not be applied to humans uncritically. The condition of acute starvation induced in experiments is very unlike the prolonged malnutrition affecting large masses of people. It is also interesting to note that heart diseases, disturbances of the blood circulation, high blood pressure and diabetes are on the decrease in periods of food shortage.—*HEALTH AND SICKNESS IN TIMES OF STARVATION AND FOOD SHORTAGE*, by M. Schechter, M.D., Tel Aviv, Israel. *The Hebrew Medical Journal*, Volume 2, 1953. O.C.L.

Why take your worries home with you?

THAT TOUGH CASE with spaces between centrals or spaces between cuspids and laterals or both. . . . If you are puzzled as to how to close these spaces we can tell you how other dentists have solved the same problem. Just send stone models of full upper and lower teeth.

Please send your impressions for our other specialties . . .

NEWS OF THE BRANCHES

(Continued from page 12)

have left out Bill Haller, for his summer home was struck by lightning and he is no doubt working like a beaver to fix it up. . . . I am told that Dick Anderson was given an award, but I can't find out what it is for, so the next time you see him, inquire. I am sure he will be glad to tell you all about it. . . . All the members of the branch are proud of the fact that Bill Vopata has become Secretary of the A.D.A. Relief Council. . . . I must say that we have a pretty live wire bunch out here in the suburbs.
—Bob Randolph, Branch Correspondent.

NORTHWEST SIDE

The weather man speaks encouragingly about a cooler August, so maybe some of this deathless prose will roll easier. At least the heat had the virtue of sending away some men on vacations and thus, make news. . . . An old reliable, Don Mammen postcards in from Deer River, Minnesota. Speaks of fishing and resting with the family. The way that we see it from here, young Mammen fishes and papa watches. That can be tough work, but not necessarily strenuous. . . . From the not so cool environs of New York City comes word from Henry Wroblewski. Showing off his family to some of his old army pals of Kelly Field of eight (8) years ago. Seems like only yesterday, says he, and then back by way of Washington, D.C. Wonder if he will bring

back any parliamentary procedures from Congress that we might use at next year's meetings. . . . And speaking of next year's meetings, have you called Thad Czeslawski for your season dinner ticket? It will be a real financial bargain this year. Take advantage of same. . . . Via grapevine but with no verification, Ed Gewarts, Henry Gewartowski and Dick Jaskulski are all vaactioning, but so far no postcards. . . . September 15. Now there's a day. A Wednesday no less. Loyola Dental is having its annual golf outing. Golf and dinner for \$7.50. And the prizes! For that alone one should make the trek out to Glendale Country Club. . . . And it took a note all the way from Memphis to comment on the fact that your reporter had been missing from these columns in the last issue. Come again, Ben Dent, it is always good to hear from our out-of-town readers. . . . Autumn is just around the corner, and with it the getting ready for the new Society year. The branch is trying the experiment of rotating Tuesday meeting nights. The usual second Tuesday in October and the first Tuesday in November. Upon the basis of attendance, the officers will decide upon the meeting night for the rest of the year. So mark your book now, Tuesday, October 12 and Tuesday, November 2. Joe Ullis is busy rounding up features for both nights, and should be ready to have them presented for your approval by the time of the next issue. . . . Please write me.—Ben Davidson, Branch Correspondent.

ENGLEWOOD

One of the biggest treats for yours truly when reading the FORTNIGHTLY is to see a column written by that talented literary wit, our own Branch Despondent and self-styled Pied Typer of Ramblin'. He's a tough man to pinch-hit for, but I guess even the best need a little rest so here goes. . . . Our Pied Typist spent eleven days ramblin' in Three Oaks, Michigan, but before leaving he kindly left the following little gem:

— POME —

Little Audrey, mad as hell
Pushed her sister in the well
Sed her mother drawing water
"Gee, it's hard to raise a daughter."
—P. T. of R.

Milt Cruse paid a visit to What Cheer, Iowa, where his nephew, a June graduate from Iowa U. Dental School has begun practice. Milt reports that for a full week the temperature was over 100°, 24 hours a day. Maybe our city isn't such a bad place after all. Milt thought Waska's coverage of the golf outing was such a scream that he read it several times. . . . Ray Bartz, playing in a foursome with John Simkus, made a hole in one on the fourth hole of the North course at Silver Lake. Just a week previous Ray had won a set of 4 woods and a Hollywood broiler at the Holy Cross Hospital Golf Day Outing. Nice going, Ray. Don't forget those clubs if you're still contemplating that trip to the A.D.A. convention in Miami this

fall. . . . Vince and Mrs. Milas left July 17 for Dewey Lake at Dowagiac, Michigan. Planned to return August 1st. Wonder if Vince smoked up all those stinky cigars which Mrs. M. won't let him smoke at home. . . . Glen and Elba Walden are back on the job after their trip to the East and Canada. . . . The Dental Assistants' officers are working hard to make this a banner year for attendance. Meetings again will be held at Nielsen's and all the gals are urged to attend the first meeting on Tues., September 14th. This first meeting will be a social and business one during which various committees will be selected. . . . Ernie Borgerding is back at the mill, bending wires, after spending two weeks fishing at Land O'Lakes. Ernie came back with some real whoppers. . . . Expect to see Al Tanis and Bob Hilton on the "Welcome Strangers" show one of these days. Al and Bob have made more fishing trips than they have caught fish, but all is not in vain as they always manage to have a great time. Tanis and Hilton are now planning their South Dakota hunting trip and Al plans to take his dog along—if the pointer can recover in time from his encounter with one of those striped rabbits. . . . Ben Jostes must have his driver and putter working in skip-stop shape as he just had his handicap lowered again. . . . That's all for now. Remember to send any news items to Romaine Waska who will send all the information to the next writer, or use it when writing his own column.—A. P. Jason, Assistant Branch Correspondent.

HUNTINGTON AND HOMER, INC.

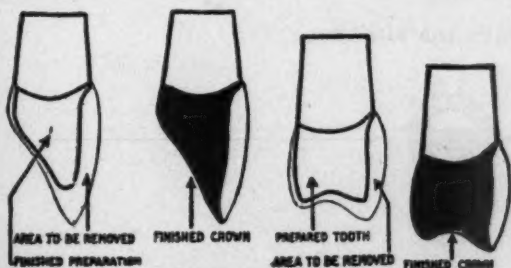

400 W. Madison Street—(The Chicago Daily News Building) CHICAGO 6, ILL.
AGENTS FOR THE DISABILITY AND HOSPITAL PLANS OF THE CHICAGO DENTAL SOCIETY

KENWOOD-HYDE PARK

Here it is time again to put some news (?) on the line. . . . This comes a little late, but just the same it is news to most of us—Ben Gans talked before the Rockford Dental Society on May 20. It is good to know that our men get around and give good talks; we can be proud of them. That was the late news, but now the latest news—Ben became the father of a nice little girl, Janet Elaine, on July 19 and we are happy to say that both mother and daughter are doing fine. This is their second child so now they have a boy and a girl and that is a nice balance. Congratulations! Of course, there isn't as much enjoyment with two as there is with four or more. It is true that they will give you many hard times, *but it is worth it.* . . . The report from the Program Committee is that they are trying something new this year and they are hopeful you will like it. You perhaps think that there isn't too much to denture work, but our program is going to try to show that there are about six phases. The first meeting is going to be about the anatomy and I will give you three guesses and take the first two away—Dr. H. Sicher, our flying lecturer, will give us the low-down and you have heard enough about him to know that it will be a darn good meeting. We will be looking forward to seeing you there, so be on the lookout for the flyer. . . . Lester Wilson has been spending some time up in Wisconsin on a ranch with his family. I don't know if that type of ranch has a lot of horses, but I guess it really wouldn't mat-

ter since Lester has to stand up anyway. . . . Dr. Munson has been over in Michigan for a week. Gee, maybe he ran into Bob Wells on his farm. . . . Lester Boyd has been reported visiting down in the southern part of Illinois, but he refused to stay very long. I guess it was just too hot, 109, and that is a little bit warmer than our weather. . . . Graham Davies is spending his spare time (?) writing. No, he is not taking my job. Poor Graham is trying to write a paper or a book, depending on which side of the desk you sit. Before very long we expect to hear that he has received his Master's degree. Now we know why there has been so much crying around all of the old places that Graham used to frequent, the poor boy has been studying and that might not be a bad idea for a lot of us. If more of us got back into studying, we would be better people and thereby make better dentists. . . . Now that Walt Dundon has moved downtown in one of those tall buildings, he'd like to have an air-conditioning unit put in his office but doesn't like the difference in temperature between the outside and the inside. I agree with him; I am in a building that has one big unit and some of the offices are colder than others. My office has been around 70 while it was 90 or more outside and that is too big a difference for the patient to have to take. . . . Bob Wells has been combining wheat on his farm so the hot spell must not have hit them very much as far as the wheat was concerned. . . . Bermuda has had a Shrine convention and our Reed Thorn-

ton was there playing in the band. . . . Poor Wayne Fisher, he has lost something very close to him—his son is no longer interested in beating him at golf. Wipe your eyes, boys. It seems that Clinton has taken to the open sea and is seen no more on the golf course. Mrs. C. Fisher must be leading a very hard life these days, she is just a sailor's wife. . . . M. W. Neimark has a job on his hands right now trying to line up dentists for a TV show. The program is to go on the air after the baseball season is over—who can compete with baseball? . . . I don't know if Elmer Ebert is getting more work done in his office now that he is retired from the presidency but everytime I try to call him the line is busy. I guess I will have to keep on trying and maybe I can get in between his calls. Of course, the guy is so popular, what chance do I have? . . . Late Flash! Howard and Mrs. Harvey became the parents of a boy July 27. That means that Howard will have some stiff competition in a few years to see who is the better dentist—he is going to be a dentist, isn't he? . . . Larry Johnson is vacationing at Vadenec.—*Warren H. Lutton, Branch Correspondent.*

WEST SIDE

Just received a card from Harold Gillogly who is vacationing in California with his family. The boys and Harold are really enjoying their vacation and their swim in the ocean. . . . Bill Gubbins and family are back from just plain resting at Dewey Lake, Michigan. . . . Robert Bailey's and George Barnes' presence at the Sox-Yank night game on July 27 undoubtedly was one of the contributing factors that encouraged the White Sox to win the game. The attendance for that game was over 53,000 and we think that Virgil Truck's 3-hit pitching was the other factor toward the White Sox victory. . . . Mrs. Bob Tuck and children are vacationing in Virginia, later they will join Bob for a trip to Canada where they will all

spend a week at his uncle's place. . . . Harry Brown made a trip to the state of Washington to see his mother. . . . From good sources I am told that Sam Rakow has been doing well at the Arlington Race Track. Golly! I wonder if he is actually talking to those nags and coaxing them to run his way. . . . Carl Madda, councilman of the Chicago district, made the front page of the *Illinois Dental Journal*. Congratulations to a hard worker. . . . The Loyola Dental Golf outing and dinner will be held at the Glendale Country Club on Wednesday, September 15. . . . Leo and Mrs. Cahill are heading for Ephraim, Wisconsin, where Leo expects to combine a little fishing with golfing. Leo's nephew, Dr. Clifford Mergener, is now associated with him. . . . About August the 15th the John Reillys will gather at Twin Lakes, Wisconsin with their two boys and their wives and children. At this reunion will be a new addition, John Joseph Reilly, III. Good luck to all the Reillys. . . . Your editor spent his vacation at home, but does not regret it, especially the mornings watching the kids play baseball in the newly formed minor league in Brookfield, which is a part of the Little League setup. Boys ranging from 8-12 years are able to participate in the hopes that they may be selected on one of the Little League teams the following year. Playing in their games were the freckled kid, skinny, shorty, fatty, and mighty mouse. Shut-outs, no-hitters, home runs, errors and almost anything that could happen, usually does. In the last two games my boy Frankie did not get any hits and is therefore very concerned about his batting average which may drop below 500 per cent if he doesn't snap out of it. Those of us who are fortunate in having children, capable of playing in the various sports, should give some thought and support to the crippled, cardiac, and cerebral palsied children who are less fortunate. . . . Thanks to Irwin Miller and President Fred Bazzola for doing a fine job in the previous issues.—*Frank J. Kropik, Branch Correspondent.*

*The ultimate
in denture esthetics*

TRUBYTE BIOFORM® TEETH

THE FIRST VACUUM FIRED PORCELAIN TEETH

... Reproduce the Lifelike and Beautiful
Qualities of Healthy Natural Teeth

and

TRUBYTE® DENTURE VENEERS

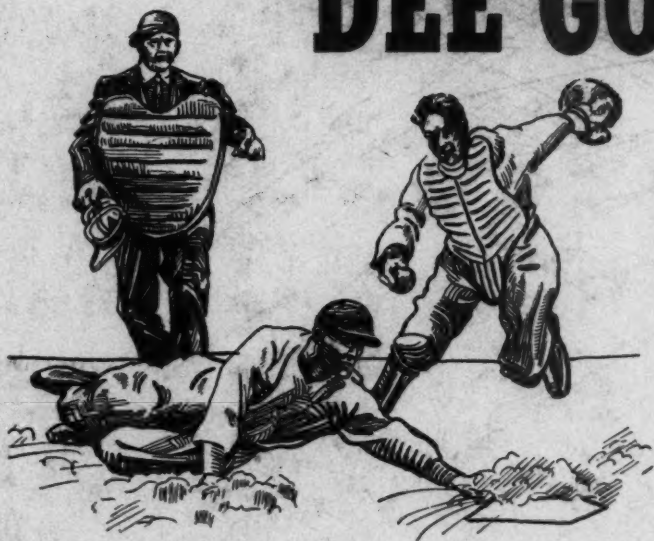

... Reproduce the Natural Color of the Living
Tissue and the Anatomy of Natural Gum Contours

Now, for the first time, you can offer *all your denture patients* a completely new concept of denture service—the modern esthetic denture with faithful reproduction of anatomy and amazingly lifelike simulation of natural tissue color. Trubyte Denture Veneers, in combination with the beautiful natural forms and shades of Trubyte Bioform Teeth, open the way to a vast new esthetic denture service.

Never before has it been possible to produce so lifelike, so beautiful, so natural looking dentures—and by such simple and easy to use methods. Ask your Trubyte Dealer or Dental Laboratory to show you the new Trubyte Bioform Veneer Denture. Make *your own* comparison test and you'll be convinced.

The Dentists' Supply Company of N. Y. York, Pennsylvania

Safe! with **DEE GOLD**

Yes, you're **SAFE** when using **DEE GOLD** because the years of metallurgical research enable **DEE GOLDS** to have the right physical properties for each specific use in dentistry. **SAFE** . . . because of the unvarying uniformity found in each composition. **SAFE** . . . because you know your patient will be satisfied.

Write for this **DEE GOLD** folder. It gives the melting range, physical properties, and suggested uses of the different alloys.
